

The background of the top half of the page is a light gray. A large, stylized 'V' shape is formed by two dark gray triangles meeting at a point in the center. The left triangle of the 'V' is composed of several smaller red triangles of varying shades, creating a geometric pattern. The right triangle is a solid dark gray. The word 'ELESOL' is centered at the top in a large, red, serif font.

ABOUT US

ELECTROWEIGH SOLUTION is India's fastest growing manufacturer of weighbridge and Weighing instruments. Our weighbridges are best suited for all the manufacturing units, Warehouses, construction sites and any unit which requires the demand of weighing. We design and manufacture cost effective weighbridges and weighing instruments according to the requirement of our client and provide weighing solutions worldwide.

Our range of products include Pit type / Surface mounted / Mobile / RCC type weighbridges, Intelligent terminals, Loadcells, Coil weighing systems, Hooper weighing systems, Platform scales, Table top scales, Counter balance.

With a market experience of over 25 years in this industry we have successful installations all around the globe. Apart from manufacturing and exporting highly advanced and efficient weighbridges, the company has also successfully implemented many turnkey projects in various different type of industries.

MISSION

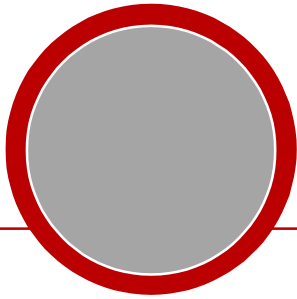

At ELECTROWEIGH SOLUTION, we strive to be relevant with the current times. As the time demands, all our machines & processes are labour efficient, production efficient & power efficient which give higher production with minimum cost and labour. We never compromise on quality and our quality products makes us India's fast growing weighbridge manufacturer company

VISION

We understand & appreciate the many challenges the system users face regarding accuracy, complexity and efficiency. We will support those user with the best of our ability not only with the common off the shelf systems, but also diverse and custom systems made especially for your particular project. We want to be a valuable asset to you by manufacturing and providing the most efficient and cost effective weighbridges to cater to any type of your demands

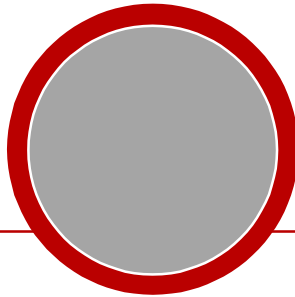

OUR TEAM

When ELESOL Weighbridge came into the market several years ago, we didn't know it will Expand into 1000's of institutions today. Our Engineers, Designers, Production unit and each one of the individual associated with us puts their blood and sweat to make the highly advance, robust and cost effective Weighbridges & Weighing Instruments. Our Team works in conjunctob with each other to deliver what's the best for our clients. At the point when your main goal is to be better, quicker and more profitable, you need the best individuals driving your vision forward and when it comes to the right weightment, its not only the raw material and quality involved, it's a lot more. To understand the ideology of any brand, it's very important to look at the employees because it's only the team that makes up the brand and any story that's close to employees delivers 'only the best'. For this every client needs individual who can showcase techniques and skills lined up with business objectives, who can mix their skills and imaginations into reality and who can break insights into customer value – and this is exactly what the teams do at ELECTROWEIGH SOLUTION. Our team is dedicated to provide you the best in class product with before time service at all times.

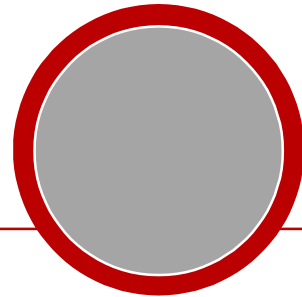

Lakshay Gupta
Marketing Head

A very passionate individual with no give up attitude with his creative strategies looks after the marketing of the Company.

Ramnath Mahto
Engineer Head

With his immense knowledge and dedication of electrical components of weighbridge he drives the foundation ahead by guiding junior engineers to provide before time service to clients.

Puran Ram
Production Head

With an experience of making more than 5000 weighbridges of all types, He designs and produce weighbridge to cater to the need of any type of our client.

ACHIEVEMENTS

Our greatest achievement lies in the fact that our existing clients place repeated order on us and refuse to choose any other weighbridge manufacturer after using ELESOL weighbridge.

We take pride in our weighbridge structure which has never bended or been crushed over by the heavy load of lorry. Our structures are designed to take twice the load capacity they are certified for without getting damaged over the years.

OUR PRODUCTS

We are not only a weighbridge manufacturer but we are a weighing solution provider. We cater to the all type demand from our customer from 1kg to 150T. Our aim is to provide the before time service in case of breakdown. Our team of experienced and skilled engineers makes the best service provider in the industry.
